UN RISPARMIO FINO 2 MILIONI DI EURO

The screenshot shows the NASA website's header with the NASA logo and the text "NATIONAL AERONAUTICS AND SPACE ADMINISTRATION". A search bar is located in the top right corner. Below the header is a navigation menu with links: "+ABOUT NASA", "+LATEST NEWS", "+MULTIMEDIA", "+MISSIONS", "+MY NASA", and "+WORK FOR NASA". On the left side, there is a sidebar with a blue background containing the text "Opensource" and a list of links: "+ NASA Home", "+ Ames Home", "+ Intelligent Systems Division", "+ Home", "+ Ballast", "+ Other NASA Software", "+ Projects", and "+ Software Agreement". The main content area is titled "NASA Open Source Software" and contains the following text: "NASA conducts research and development in software and software technology as an essential response to the needs of NASA missions. Under the NASA Software Release policy, NASA has several options for the release of NASA developed software technologies. These options now include Open Source software release. This option is under the NASA Open Source Agreement 'NOSA'." Below this text, it states "The motivations for NASA to distribute software codes Open Source are:" followed by a bulleted list: "• To increase NASA software quality via community peer review". At the bottom left of the page, there is a "Search" button.
